

Habitat destruction Define biodiversity.	Habitat destruction Three reasons for habitat destruction?
Habitat destruction Five undesirable effects of deforestation?	Habitat destruction Why does deforestation cause soil loss?
Conservation Causes of endangerment and extinction?	Conservation Supplement Four ways to conserve endangered species?
Conservation Supplement What is a seed bank?	

Housing, crop and livestock production;
extraction of natural resources; freshwater
and marine pollution.

The number of different species that live in
an area.

Without tree roots to hold it, soil is washed
away by rain.

Reduced biodiversity, extinction, loss of
soil, flooding, increase of carbon dioxide in
the atmosphere.

Monitoring and protecting species and
habitats, education, captive breeding
programmes, seed banks.

Climate change, habitat destruction,
hunting, overharvesting, pollution and
introduced species.

A store of seeds of rare plants, kept so
plants can be grown if wild populations are
lost.
